

Job (at Delphi presentation): "Robert and I spent the summer doing Gravity Railroad research. We did so mostly on my motorcycle. It was a wonderful summer."

The above was said by John to the group of about 15 women who were gathered in the living room of the Methodist parsonage. We were looking at slides of the O'H Gravity Railroad at the time. I was overwhelmed. What a beautiful thing to say.

EAB & BGS were present and John and I made a big deal over them. It was quite wonderful.

Jean came over about 1 PM with a copy of a recent letter that Chuck Colville had written to his brother Ken. What a beautiful / rational letter it is. It was all about the settlement of the RMC estate and Chuck is so "right on target" with regard to the settlement that I wish I could get a copy of the letter -- I would paste it down here. I am very fond of Chuck. I have only been around him for about a hour, all totaled, and that was (1) at the RMC birthday party and (2) at the death of RMC. Five minutes after I met Chuck I had the impression that he understood me very very well. There are only three or four people who understand me as well as Chuck Colville does. Quite extraordinary. I look forward to the arrival of Chuck & his son Mark this week to divide up, with Ken, the RMC estate.

at 5 PM I met Vince Pelletta at the City Hall and he delivered six of the half circle windows for the third floor. Ed, Paul & Jimmy arrived at about 5 PM. Vince and I went up to the 3rd floor and looked over the area. Vince, it appears, is an opera fan. We spoke about that. When I told him that I was a Wagnerian he was overjoyed. There can't be many of us in town, that's for sure. We also spoke of some Janet Baker and Sherrill Milner (whose name Vince mispronounced). How pleasant to have the new windows for City Hall made by someone who knows who some Janet Baker & Sogfuer, for example, are. I paid Vince \$400.00 on his contract to do the windows. at 5:30 or so, Job arrived. He was "dressed to kill" as we say -- all set for the Delphi presentation at 8:30 PM: a PSU jersey, new denim slacks, new Nike shoes. Job in buoyant spirits as well. Excellent. I gave him his
